- Major in Business Economics

SKILL

Front-End Developer
- HTML
- CSS
- React
- Vue.JS (Basic)

Framework
- Tailwind CSS
- Material UI
- Bootstrap5

Back-End Developer
- JavaScript

Database
- MySQL (Basic)

Tools
- Visual Studio Code

EXPERIENCE

Website Travel

Developed the website using HTML and used Bootstrap 5 for designing the layout. Design a visually pleasing login page with CSS by using JavaScript to dynamically display images on the page.
- https://github.com/Beckham07m/Work Shop-Futureskill

Website CRUD

The project has been developed using React and Vite, with the use of Material-UI to enhance the website's aesthetics. The website will display user data in a management interface, allowing customization such as permitting addition, deletion, or modification of user information freely.
- https://github.com/Beckham07m/React-crud

Website Portfolio

This project is developed using React and Vite and utilizes Tailwind CSS for website aesthetics. The web pages will feature a navigation bar located at the top of the site, serving as a menu to control navigation to various topics within the website.
